

All About Me (Child Profile)

The following information assists us with programming, planning and helps us to know a little bit about your child when they start at CHOOSH Care for the first time. Your child's profile will be included in their individual child folder, which is accessible to the child, and yourself, and may include any crafts, observations, photos and activities which your child has engaged in while at CHOOSH.

Please include a recent photo of your child (or we can take one once they start at CHOOSH Care 😊)
